Borough Makes Ten-Year Lighting Contract, but Can't Use S. N. E. T. Co.'s Poles-Summer Heat on Tues-

A special meeting of the board of warden and burgesses was held Monday evening. The Nashawaug electric power company has entered into a contract to supply electric lights to the borough of Jewett City on a contract of ten years. They are building a plant at Plainfield, and have a large per cent, of their poles in position between here and that town with the end stated in view. A high tension wire, carrying 11,000 voits, will be used to transmit the power to the borough switchboard. The electric lighting wires in the borough are carried on wires in the borough are carried on the poles of the Southern N. E. T. Co., and they claim that the carrying of so and they claim that the carrying of so heavy a voltaged wire in such close proximity to their telephone service wires, would be disastrous and damaging to their interests; hence they refuse to permit it. The Nashawaug company has asked the borough government to permit the erection of new poles down North Main, to Main, down Main to School thence to the location of the present switchboard at Riverside. At the meeting Monday evening the board felt unwilling to assume total responsibility in this matter without hearing the public voice, hence there will be considerable interest in the adjourned meeting Thursday evening, when the freemen will be present.

Several suggestions other than new poles have been offered; some say it would be an advantage to move the switchboard to the borough line on North Main street which would settle the difficulty, as after transforming the first current the light can be disthe first current the light can be dis-tributed in the berough limits as us-ual. Others say it is practicable to bring the current from upper North Main street to Riverside underground. It has been arranges that the clin beetle question to which the borough gave so much attention last year shall be discussed at the meeting Thursday evenling.

Club Entertained. The Thorniea club was entertained Tuesday afternoon by Mrs. W. H. Gane at her home on Main street.

### WOMAN ALERT. Bridgeport Enumerator Got Names of Circus Employes

Director Durant of the United States Director Durant of the United States census recently sent a communication to the special agent hore, requesting that arrangements be made to take the enumeration of the men composed with Ringling's circus, which last this city, from the winter quarters, after April 15. There was no need of this request, for the enterprise of the women snumerator who had that district, had caused her to make arrangements to that effect some time ago. She supplied one of the officials of the circus with blanks and received his assurance that they would be filled out and sent to her. There are from 200 to 250 names in this portion of the enumerator's work.
